1 Queensway Singapore, Singapore 149053

SUMMARY

Clever, talented and open-minded senior front-end developer specializing in Web Development.
Identified and resolved inefficiencies in the development cycle, resulting in a 25% reduction in time-to-market for web projects, demonstrating exceptional self-motivation and the ability to work autonomously.
Very good at making and building basic layout with HTML, CSS, JavaScript and jQuery.
Well-versed in numerous programming frameworks including Express, Flask, Ruby and Java with MySQL, MongoDB and so on.
Having the strong background in project management and customer relations.
Possessing an excellent team spirit, deadline-oriented and having the ability to organize and present complex solutions clearly and accurately.
Revitalized cross-functional software development projects by introducing unconventional approaches and leading a team of 10 developers; achieved a 25% increase in overall efficiency and reduced time-to-market by 30%

EDUCATION

STARS INTERNATIONAL SCHOOL   (2015 - 2017)

PSB ACADEMY   (2017 - 2019)

Master's Degree in Information Technology

BASIC SKILLS

C & C++ Language

C#

Java

JavaScript

Node.js

PHP

Python

Ruby

PROFESSIONAL SKILLS

Express

ASP.net

Flask

Tensorflow & Pytorch

Machine Learning

Laravel

Ruby on Rails

Web Scraping

DevOps

Cloud Technologies

Unity & Unreal

Golang

WordPress

CodeIgniter & Yii

ENTERPRISE SKILLS

Team Work

communication

Creative Idea

Innovation

Organization

Problem Solving

WORK EXPERIENCE

INFOC COMPANY   (2021.9 - 2023.5)
BACKEND DEVELOPER

- Kept up-to-date with the latest backend technologies and best practices to stay competitive and deliver cutting-edge solutions.
- Optimized application deployment and continuous integration workflows, collaborating closely with DevOps teams to enhance efficiency and reliability; implemented automated testing and deployment strategies, resulting in a 50% reduction in deployment errors and a 30% increase in development team productivity.
- Innovated rigorous testing methodologies, including automated regression testing, resulting in a 30% reduction in application downtime and ensuring optimal performance for 100k+ monthly active users.
- Spearheaded the implementation of robust design systems, enabling the application to effectively handle rapid traffic and data growth, resulting in a significant 150% boost in user satisfaction and a notable 30% decrease in system latency.
- Possessed strong problem-solving skills and be able to work collaboratively with other teams to deliver a cohesive and successful web application.

SOFTWAREQ COMPANY   (2019.7 - 2021.4)
BACKEND DEVELOPER

- Redesigned cloud-based infrastructure using AWS, Azure and Google Cloud and optimized web application performance and achieved a 50% reduction in server response time.
- Accelerated advanced caching mechanisms, optimizing application performance and reducing load time by 40%, resulting in a seamless user experience and increased customer satisfaction.
- Streamlined backend processes and database queries, enabling the application to handle high traffic loads of 100,000+ concurrent users without any performance issues.
- Often involved in implementing security measures to protect sensitive data and prevent unauthorized access to the application's backend.
- Expanded a comprehensive database design, optimizing data retrieval and storage, resulting in a 45% reduction in query response time and improving overall system performance.
